RECEIVED

January 31, 1920

Mr. Ball

Memorandum for Mr. Bower:

The Lisianski Packing Company did not operate in Alaska last season.

Whiz Fish Company advise that they forwarded blanks to the Washington office about January 1. I have given them new blanks to fill out.

N. E. Bolshanin, of Unalaska, has been given a blank on which to make his report. He advises me that A. C. Goss did not take any fish last season; also that the Alaska Commercial Company did not operate. Mark Morris put up about 14 barrels, but they were put up for Bolshanin, and Bolshanin will therefore include them in his report. Mr. Bolshanin states that he thinks that O. K. Quean, of Unalaska, put up a few fish in barrels but is not certain as to the number.

Doyhof Fish Products Company is out of business, having been taken over by G. W. Hume Company and operated for 1919 as Scow Bay Cannery. A return of operations has been sent in to the Washington office.

All of the Seattle companies mentioned in your memorandum of January 19 have been requested to forward reports if they have not done so.

We can find no trace of the Pacific Coast Packing Company.

2485.
